Kamala Harris Campaign just called the cops on an independent journalist for posting photos of a poorly-attended Kamala Harris rally

However, it was easy to find me because there were only 150 people there.

Kamala really does not want you to see this...

LANDFAIR: Soros-backed DA Alvin Bragg hid the fact that Jordan Neely was a violent felon before he was killed by Daniel Penny, and Bragg's office knew it as well as Neely after they arrived. It is clear Bragg is falsely prosecuting Penny for political gain.

Tucker Carlson just said the net reason the Deep State hates Trump is because they ARE guilty of crimes.

"That had never occurred to me till Trump came. And yet everybody involved in the grift knew instantly the big lease up. If the guy keeps talking, he's going to implode."

Does anyone think Trump would allow a loser like J.Lo to endorse him & share his stage?

There LuvVoter Hollywood elitists endorsing Kamala are involved in sex trafficking, pedophilia & narcotics distribution

Kamala craves their support & that's an indictment not endorsement
